**The Cerro Coso College Baseball Team is sponsoring a Christmas Tree/Wreath Sale for our 17th Year.**

We are presenting two types of trees: NOBLE FIR      DOUGLAS FIR      We also sell wreaths and garlands.

These will be #1 QUALITY, FRESH CUT trees with the shipment being **delivered on Saturday December 5th to Cerro Coso College**. Team members will be there to assist in loading your tree.

We realize that selecting a Christmas tree is a very special event, so your selection is very important to us. Last year's trees were beautiful and fresh. We are certain you will be extremely pleased, not only with your trees freshness, but also their overall size and configuration. Our Oregon and Washington suppliers guarantee it.

**WE HAVE BIG TREES AGAIN!**

Though the trees are pre-ordered, you will be able to select your tree at the lot. Mark your calendar for **Saturday December 5th**. **The tree lot will be on the Cerro Coso tennis courts (next to the gymnasium) from 9:00 am. to 12:00 PM for Pick UP**

Remember to order your FRESH CUT, EXCELLENT QUALITY, AND REASONABLY PRICED tree from the Cerro Coso College Baseball Team. This is a fundraising program, which is tax deductible, and best of all, supports your schools student athletes. **You will receive a full refund if you are not completely satisfied.** Profits from the first 16 years played a significant financial role towards the building of our press box, snack bar, batting cages, and purchase of the scoreboard.

We wish to thank you for your support. **Please order your tree before October 30, 2009.**

**HOW TO MAKE YOUR TREE LAST LONGER:** We will cut 1" off the bottom of your tree. This will remove the dried sap and promote the trees drinking ability. You take the tree home and place it in a bucket of cool water. Place the tree in a shaded area and let it absorb the water. Check the water level each day because the tree will again seal itself when the water is gone. Leave it in the bucket of cool water until you are ready to take into your homes warm temperatures.

**Giving your tree a constant drink of water will keep your trees needles soft and green much longer!**
